PLANETARIUM SHOWS

2017

8:00 PM on these selected Fridays:

September 8, 2017 - "The Fall Sky"

With the return of cooler weather the familiar constellations of Winter reappear. Join us as we show you how to find these constellations in the evening sky, and take a humorous look at the myths behind them.

October 6, 2017 - "ET- The REAL Search"

We see aliens all the time on TV and the movies. But what would they really be like? Where might we find alien life? Join us as we hunt for extraterrestrial life and speculate what form it may take.

November 3, 2017 - "Oasis In Space"

Liquid water is a critical requirement for life, so our search for extraterrestrials must begin by looking for water. Join us as we tour our solar system in a search for water in our local neighborhood in this show from E & S Spitz, Incorporated.

December 1, 2017 - "Black Holes"

The immensity and power of black holes inspire wonder and curiosity. The mass of a large star has collapsed and compressed into an area so small that space and time have no meaning within its bounds. Our journey also visits super-massive black holes of unfathomable size at the central point of galaxies. This immersive show is from the Clark Planetarium in Salt Lake City, and narrated by John de Lancie ("Q" of Star Trek fame).

Students: please bring a small flashlight to take notes during the show, and ask at the ticket table for red tape to put on the lens. Use of cell phones, recorders, cameras, computers, or other electronic devices is not permitted during shows. The LAVC Astronomy Group reserves the right to refuse admission or eject any person for conduct deemed to be disorderly or intrusive upon the enjoyment of other guests.

Accessibility Notice

Planetarium shows and Sunday night Meetings/Lectures are wheelchair accessible. Individuals needing sign-language interpreters or other accommodations should contact David Falk, the Planetarium Director, at (818) 947-2864 as early as possible, but AT LEAST TWO WEEKS IN ADVANCE of an event.

Open to the public! 1 hour-long presentations on a variety of astronomical topics. Please arrive early, as shows often sell out. Shows start promptly at 8 pm. and there is no late seating. Tickets are sold on a "first-come, first served" basis at the door on the night of the show, starting at 7:30 pm. There are no advance ticket sales. Afterwards, join us in the Observatory for viewing through our telescope (weather permitting). No previous knowledge of Astronomy is required. Shows and dates are subject to change; please call our "Hotline" to confirm the program.

ADMISSION: \$6.00 for Adults; \$5.00 for Senior Citizens & LAVC students with ID cards; and \$4.00 for kids 8 - 12. Astronomy Group members: free with valid membership card presented at the door.

PARENTS PLEASE NOTE: We cannot admit children under the age of 8.
